What is Fields of Faith?

Fields of Faith is a peer-to-peer event. Students invite their own classmates and teammates to hear fellow students share their testimonies, be challenged to read the Word of God and follow Jesus Christ. An athletic field provides a neutral, interdenominational rally point where a community can come together.

Students combined with a leadership team will work together to run the event. The leadership team will work to form partnerships with churches in the area regardless of denomination and help plan their *Fields of Faith* event.

Most modern rallies are built around entertainment with professional speakers and this tends to create a separation. *Fields of Faith* highlights local students in the program creating a powerful connection. The success of this event is rooted in its simplicity:

1. Bring many people together at one time.
2. Read Scripture and share personal testimonies.
3. Be challenged by fellow students to read the Word of God and to follow Jesus Christ

What we need from you!

- **PRAY, PRAY, PRAY!!!**
 - Pray that students will attend and be impacted for the Kingdom!
- **Promote, promote, promote!!!**
 - We would love to have the entire "FCA" stadium at DMS filled with students from every school and church in our area. Please pass this along to your youth pastor(s) and encourage their entire youth group to attend.
- **Invite and attend!!!**
 - Invite anyone and everyone, no matter the age, to attend along with yourself.

We will continue to update you on any changes and specific details as the date draws closer. Please let me know if you have any questions or concerns.

Your Partner and Teammate in Christ,

Jason Lester
